OBJECTIVE

Motivated front-end developer with a strong foundation in HTML, CSS, and JavaScript. Currently pursuing a Full-Stack Development Certification, covering front-end and back-end technologies including React, Python, Django, APIs, and SQL. Passionate about creating responsive and user-centric web applications, with a goal to grow as a software developer and contribute to global engineering teams. I am eager to join Amazon AWS to apply my skills in solving challenging, large-scale problems.

EDUCATION

Full-Stack Developer Certification from Learning People (In Progress)

Focused on:

- **Front-End**: React, Git & GitHub, Agile for Developers
- **Back-End:** Python, Django, SQL, API Development

  Expected Completion: [June 2025**]**

Self-Taught Front-End Development

Technologies Learned:

- HTML, CSS, JavaScript (ES6+), Git

Completed Udemy courses

- **HTML & CSS**: Completed Dr. Angela Yu's The Complete Web Developer Bootcamp
- **JavaScript**: Completed The Complete JavaScript Course 2024 by Jonas Schmedtmann

Post Graduate Diploma in International Hospitality Management
Auckland University of Technology: Completed: [2014]

SKILLSET:

- **Front-End Development:** HTML, CSS3, JavaScript (ES6+), Responsive Web Design, Version Control (Git), React (Currently learning)
- **Back-End Development (Currently Learning)**: Python, Django, SQL, API Development
- **Version Control**: Git, GitHub
- **Problem-Solving**: Strong logical approach to resolving development challenges
- **Leadership & Team Management:** Strong leadership background in managing teams and resolving complex issues
- **Communication & Client Relations:** Proven ability to interact with diverse stakeholders, offering clear, empathetic communication
- **Adaptability & Continuous Learning:** Quick to learn new technologies and skills, with a commitment to personal and professional growth
- **Collaboration:** Able to work effectively with cross-functional teams to build high-quality software solutions

CAREER HISTORY:

Nov 2021 – PRESENT   **ACC (Accident Compensation Corporation)**
                                               Senior Case Manager

- Support and mentor team members, providing guidance on complex decision-making processes and ensuring effective case management
- Develop and implement recovery strategies to advance complex cases and achieve outcomes in accordance with legislative requirements.
- Provided leadership support in high-pressure environments, improving team performance and driving operational efficiency

June 2016 – Nov 2021   **Various Positions, New Zealand**

- Led teams of up to 30 staff members, overseeing operations in high-pressure client facing environments
- Delivered excellent customer experiences through leadership and team development
- Coordinated staff training programs, improving efficiency and quality of service
- Implemented strategic operational improvements that resulted in increased customer satisfaction and business growth

FRONT END DEVELOPMENT PROJECTS

Personal Portfolio Website

- Designed and built a responsive portfolio using HTML, CSS, and JavaScript to showcase personal projects and technical skills.
- Focused on clean, modular code to demonstrate front-end best practices

To-Do List with Priority Box

- Created an interactive to-do list application with a drag-and-drop feature for prioritizing tasks focused on clean, modular code and intuitive user interface for task tracking
- Implemented JavaScript to manage dynamic task updates and local storage for task persistence across sessions

Marketing Webpage

- Developed a modern marketing webpage utilizing advanced HTML, CSS, and JavaScript features.
- Integrated responsive design techniques, CSS animations, and form validation to enhance user experience and interactivity
- Designed to be fully compatible with different screen sizes, ensuring a seamless experience for all users

KEY ACHIEVEMENTS & TRANSFERRABLE SKILLS

- **Leadership & Team Building**: Proven leadership from hospitality and case management roles, adaptable to cross-functional teams
- **Client-Focused Solutions:** Strong communication skills honed in both customer service and client management, ideal for creating user-cantered web solutions
- **Resilience & Adaptability**: Experience in high-pressure environments with the ability to quickly adapt to new challenges and industries
- **Growth-Oriented Mindset:** Committed to continuous learning, exemplified by self-driven progress in front-end development.
